## Best Dictaphone

Are you going to purchase a dictaphone? Don't hurry because you can turn your favorite phone into that device - just with one hotkey press! Best Dictaphone allows you recording an important idea and even a phone conversation!

### How to start:

1. Assign hot key(s);
2. Open settings and customize the options you need;
3. Activate Best Dictaphone by Joystick click;

After this you can close the configuration application and press an assigned hot key at any time. When Best Dictaphone starts recording you will see a small window with time counter.

### Features

- Start/Stop recording by one hotkey press at any time;
- Recording phone conversations;
- Unlimited record time! Limitation only by disk space;
- Custom hot key for recording start/stop;
- Multi hot keys;
- Shift (Pen) 3 times hot key;
- User defined folder for recorded files;
- Customize sound beep before and after recording;
- Customize default record file name;
- Autostart option;
- Custom record file format (wav or amr);
- Play records directly from application;

**Don't miss your brilliant ideas!**
